

ADVICE FOR BAGGAGE INSPECTION AT TEGEL AIRPORT

According to the German air safety regulations (§ 5 Abs. 3 Luftsicherheitsgesetz) registered baggage, has to be re-checked because it gives reason for further scrutinizing or as additional inspection according to EG-Regulation 2320/2002.

In order to ensure convenient handling procedures and punctual flight departures in the interest of our passengers, security re-checks at Tegel Airport are mostly carried out without the passenger's presence according to the legal requirements (§ 8 Abs. 1 Nr. 3 LuftSiG).

Assistants of the aeronautical authority and specialized personnel of the Berliner Flughafen-Gesellschaft state the inspection result in the enclosed document.

In case of problems please contact your airline or the responsible handling agent immediately according to the Contract of Carriage. All claims must be supported by documentary evidence (e.g. receipts).

Our Call Center, Phone: +49 (0) 1805 00 01 86 (Land line price: 0.14 Euro/Min.; other prices possible from mobile phone networks) will inform you about the contact persons and -addresses at any time.

Please assure before flight that your baggage and hand baggage does not contain cigarette lighters.
