# 1 Distribution List

This aerodrome manual is distributed according to the following list:

Recipient	Medium
Aviation Authority (LuBB)	Data storage device + Digital
Intranet	Digital
Extranet (excerpts)	Digital
Internet (excerpts)	Digital

Document management covers solely the digital version. If and when an aerodrome manual has been printed out, management of the document is no longer provided and the document cannot be guaranteed to be up to date. Before making any further use of such hard copies, users must take the steps necessary to ensure that they are using an up-to-date version of the aerodrome manual.

The most recently updated version of the aerodrome manual is available on the airport operator's intranet; excerpts are available to external users on the extranet at <https://extranet.berlin-airport.de> and on the internet at [www.berlin-airport.de](http://www.berlin-airport.de) (see: Annex 1 — Restrictions on the Distribution List). Unless otherwise stated, the distribution list set out in Annex 1 applies to the main chapter and its annexes.

Note:

Intranet and extranet users can select an option which will automatically send them an email notification whenever there is an update to the aerodrome manual.

The aerodrome manual is published in German. Specific components of the aerodrome manual or procedural regulations relevant for a general group of users or containing information for aviation purposes are published in English as well.
